MileCheck

Live I-17 DOT road reports on your store's TV.

Drivers can check reports for the highway ahead while they get coffee.

It costs your store nothing. The board runs in your TV's web browser and updates itself. You need Wi-Fi and a TV with a working web browser. We check it works on yours first.

DEMO FOR YOUR STORE, USING LIVE ADOT REPORTS

There is one sponsor slot along the bottom. Your store gets a share of sponsor payments when the slot is sold. Nothing is on it until then.

Try it on one TV for ten minutes.
