The roads over Mount Hood

Two highways cross the mountain. Both stay open through winter, and ODOT posts chain and traction-tire requirements on both when conditions call for it.

US 26 over the mountain

US 26 climbs from Sandy through Rhododendron to Government Camp, at 3,891 feet, then crosses Wapinitia Pass and Blue Box Pass (4,017 feet) on the way to Madras. Government Camp averages 232 inches of snow a year. Timberline, Mt. Hood Skibowl and Summit Pass all turn off this road, so ski weekends put resort traffic on the grade.

OR 35 to Hood River

OR 35 leaves US 26 near Government Camp and runs 42

miles over Bennett Pass (4,647 feet) to Hood River. Mt. Hood Meadows is on this side. Hood River sits on the dry side of the Cascades, and the cameras at Meadows Drive and Parkdale are the ones to check for the east side of the mountain.

Chains and closures

ODOT posts chain and traction-tire requirements on both highways when conditions call for it, and closes them for storms and avalanche control. Requirements change by the hour in a storm. Check the cameras,

then follow the signs at the chain-up areas.

Are chains required on Mount Hood?

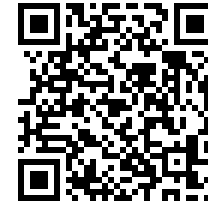

When ODOT posts them. The signs at the chain-up areas on US 26 and OR 35 carry the current requirement.

How high is the road over Mount Hood?

Government Camp on US 26 is 3,891 feet. Bennett Pass on OR 35 is 4,647 feet. Blue Box Pass, on US 26 south of the OR 35 junction, is 4,017 feet.

Notes

Live conditions

Cameras, closures and road reports from ODOT and NIFC. This sheet was built September 29, 2026. Check the live page before you leave.

In the car

In the MileCheck app the nearest camera and your exact mile marker follow you up the grade, hands-free on CarPlay and Android Auto.

About this map

The numbered stops are a selection from OpenStreetMap along the roads this sheet is about. This map does not show every stop. Gates and seasonal closures are not drawn.
