## Driving Donner Pass

### When it closes

Donner is in a league of its own for snow. Sierra storms can drop feet in a day, and Caltrans runs chain controls and full closures on I-80 over the summit throughout the winter. When a big system lines up on the Sierra crest, this pass can close for a day or more. Check the cameras

and chain status before you head up.

### Are chains required on Donner Pass?

Very often in winter. Caltrans sets chain controls (R1/R2/R3) on I-80 that change with each storm.

### How high is Donner Pass?

The I-80 summit is 7,056 feet in the Sierra Nevada, far higher and

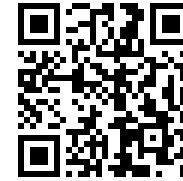

snowier than the coastal passes. That is why chain controls here are routine, not rare.

### Where is Donner Pass?

On I-80 in the Sierra Nevada near Truckee, between Sacramento and Reno. Track your exact mile marker over the summit with the MileCheck app.

### Notes

### Live conditions

[milecheckapp.com/passes/donner/](https://milecheckapp.com/passes/donner/)

Cameras, closures and road reports from Caltrans. This sheet was built September 29, 2026. Check the live page before you leave.

### In the car

MileCheck shows your mile marker, the nearest camera and the alerts ahead, on CarPlay and Android Auto. The mile marker works without a signal.

### About this map

The numbered stops are a selection from OpenStreetMap along the roads this sheet is about. This map does not show every stop. Gates and seasonal closures are not drawn.
