Driving Siskiyou Summit

When it closes

If any part of I-5 is going to close in winter, it's usually here. At 4,310 feet, Siskiyou Summit gets snow and ice that shut the interstate or force chain requirements several times a season. Because it's the only I-5 crossing of this range, a closure here backs up traffic for hours in both states.

Are chains required on Siskiyou Summit?

Chain and traction requirements are set by ODOT and change with the weather. This pass can go from clear to chains-required quickly.

What is the highest point on I-5?

Siskiyou Summit, at 4,310 feet in southern Oregon, the highest

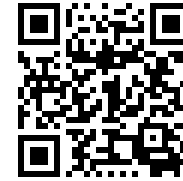

elevation on Interstate 5. The Grapevine in California is the other big winter closure spot.

Where exactly is Siskiyou Summit?

On I-5 in southern Oregon, a few miles north of the California border and south of Ashland. Track your exact mile marker over the pass with the MileCheck app.

Notes

Live conditions

milecheckapp.com/passes/siskiyou/

Cameras, closures and road reports from ODOT. This sheet was built September 29, 2026. Check the live page before you leave.

In the car

MileCheck shows your mile marker, the nearest camera and the alerts ahead, on CarPlay and Android Auto. The mile marker works without a signal.

About this map

The numbered stops are a selection from OpenStreetMap along the roads this sheet is about. This map does not show every stop. Gates and seasonal closures are not drawn.
