Driving Stevens Pass

When it closes

Stevens is higher and snowier than Snoqualmie, and US-2 over the summit closes regularly through the winter for avalanche control and heavy snowfall, sometimes for extended windows when the avalanche danger is high above the highway. Check the cameras before you leave. Conditions here turn quickly.

Are chains required on Stevens Pass?

Traction and chain requirements are set by WSDOT and change fast in a storm.

How high is Stevens Pass?

The summit is 4,061 feet on US-2 in the Cascades, higher and typically snowier than nearby Snoqualmie Pass on I-90.

How far is Stevens Pass from Seattle?

About 78 miles northeast on US-2, roughly two hours in good weather. Track your mile marker over the pass hands-free with the MileCheck app.

Notes

Live conditions

milecheckapp.com/passes/stevens/

Cameras, closures and road reports from WSDOT. This sheet was built September 29, 2026. Check the live page before you leave.

Snow and avalanche

Snow depth for this road is measured at the Stevens Pass SNOTEL station, 3,940 ft, at the summit. The avalanche forecast comes from NWAC. Both are on the live page.

In the car

MileCheck shows your mile marker, the nearest camera and the alerts ahead, on CarPlay and Android Auto. The mile marker works without a signal.

About this map

The numbered stops are a selection from OpenStreetMap along the roads this sheet is about. This map does not show every stop. Gates and seasonal closures are not drawn.
